

ZHAW is one of the leading universities of applied sciences in Switzerland. Teaching, research, continuing education and other services are both scientifically based and practically oriented. Our graduates are able to apply their knowledge responsibly in demanding professional fields. In research & development, we concentrate on seeking solutions to important societal challenges, with a particular focus on sustainable energy and social integration. With locations in Winterthur, Zurich and Wädenswil, ZHAW benefits from productive interaction with its regional communities and businesses, as well as from its broad cooperative programmes with diverse international partners.
